

APPEAL OF ASYLUM SEEKERS TO PM JULIA GILLARDs, MPs, NAURU GOVERNEMENT, HUMAN RIGHTS COMMISSIONS AND REST OF THE WORLD

What are the facts of asylum seekers in Nauru, we left our homelands because our lives were in danger and having no freedom.

After taking risk of deep Indian Ocean, we reached Australia in a hope of new start of life.

We have lost our wealth and we are losing our health steadily.

This time our hands are empty and we have hoped to get in Australia for new start of life.

We request to PM Julia Gillard's Nauruan government, PNG and rest of the world to save our lives and futures.

Responding to the statement given by Salavation Army, let's invite the media to find the reality.

Who are living in tents without A/C and fans and who are living in A/C rooms?

We request to the Australian media to come and lets the world know about our conditions.

Why media is banned here because here we have the worst condition of lives, they want to hide the reality from people of Australia and Human rights commission.

Day by day asylum seekers in Nauru are effecting from diseases due to living in a wild environment of 40 Celsius.

Even some of the workers of Salavation Army are crying to see us in this condition why they are not telling the reality to the Australian people, some of worker of Salavation Army told us once they will back to Australia, they will not come again to this wild environment..

We asylum seekers believe in God and having hope of help from the people of Australia and Human rights commission.

Due to limited access, we are not allowed to have the same letter in scan form, to send it to the media with the signatures of asylum seekers.
