Asylum seekers on Manus Island and Nauru are not safe— Process all asylum seekers in Australia

PETITION

To Prime Minister Tony Abbott and the Minister for Immigration and Border Protection Scott Morrison

The responsibility for the death of one asylum seeker and injury of seventy-seven asylum seekers lies in the hands of Minister for Immigration and Border Protection Scott Morrison and the Liberal Government. Asylum seekers were attacked by G4S guards employed by the immigration department alongside PNG police and locals.

This horrifying incident demonstrates the deeply inhumane policy of offshore processing, Operation Sovereign Borders and the 'no advantage' principle. Offshore processing has meant the refugees under Australian care have been detained indefinitely in impoverished countries like Papua New Guinea. This has inflamed tensions on the island as a giant detention centre is imposed by the much richer neighbouring country of Australia.

We the undersigned demand that you:

- **Close Manus Island and Nauru detention centres**
- **End offshore processing and return to community processing on the Australian mainland**
- **Launch an independent inquiry into the death of 1 and injury of 77 asylum seekers on Manus Island**
- **End the media secrecy and blackout**
