Dear Sir

Subject: The transport service will be on hold due to outstanding bills are not been paid

The Logistics transport is making a on hold on daily service runs for all clients due to outstanding bills are not been served. According to the service provider the costing is too much. The service provider needs the money to maintain the service being provided.

These have cost the company to pay extra expenses to operate the service which leads to lack of funds. The top management has made a decision to on hold the service being provided. However, will only allow for PIH Hospital runs.

Therefore, this noticed served to you all regarding the mention subject above, all daily operations runs will be on hold starting from Friday 13th October 2023, until further noticed.

Thank you

.....
